Professional Summary

Final-year B.Tech Information Technology student with strong knowledge of Full Stack Development, Generative AI, Machine Learning, and DevOps. Experienced in building scalable web applications using React, Firebase, Python, and cloud technologies. Hands-on experience implementing CI/CD pipelines using Jenkins, Docker, and GitHub. Passionate about solving real-world problems using AI-powered applications.

Education

Sasi Institute of Technology and Engineering

Bachelor of Technology – Information Technology

2023–2027

CGPA: **8.5/10**

Sri Mathru Sri Junior College

Intermediate (MPC)

2021–2023

Percentage: **73.8%**

Technical Skills

Programming Languages: Java, Python, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Flask, REST APIs

Database: MongoDB, Firebase Firestore, MySQL

Cloud & DevOps: Docker, Jenkins, Git, GitHub, GitHub Actions, Firebase Hosting

AI/ML: Machine Learning, Generative AI, Prompt Engineering, Data Preprocessing

Projects

Innovation Hub (Generative AI + DevOps)

Technologies: React.js, Firebase, Python, Docker, Jenkins, GitHub, Generative AI

- Developed an AI-powered Innovation Hub platform for submitting, managing, and collaborating on innovative project ideas.
- Integrated Generative AI to generate project ideas, improve documentation, and provide intelligent suggestions.
- Built secure authentication and cloud database using Firebase Authentication and Firestore.
- Designed an automated CI/CD pipeline using GitHub, Jenkins, and Docker for continuous deployment.
- Developed a responsive frontend using React.js and deployed the application on cloud hosting.

PolicyPal – AI Assistant

Technologies: Python, Flask, Firebase, Generative AI

- Developed an AI-powered assistant that answers questions based on organizational policy documents.
- Used Generative AI to provide accurate and user-friendly responses.
- Built an intuitive web interface for policy search and AI-assisted support.
- Improved accessibility by simplifying complex policy documents.

Internships

Machine Learning Intern

- Worked on Machine Learning concepts including data preprocessing, feature engineering, and model building.
- Implemented supervised learning algorithms to solve real-world problems.
- Performed model evaluation and data analysis using Python.
- Gained hands-on experience in AI model development and deployment.

DevOps Intern

- Gained practical experience with DevOps tools and software development lifecycle.
- Built CI/CD pipelines using Jenkins and GitHub for automated build and deployment.
- Containerized applications using Docker for consistent deployment across environments.
- Worked with Git version control, GitHub repositories, and deployment automation.
- Learned cloud deployment concepts, infrastructure automation, and monitoring.

Certifications

- NIT Trichi – DevOps Internship Certificate
- HMIES – Machine Learning Internship Certificate
- Purple Lane – Generative AI Workshop
- Brain O Vision – Data Structures & Algorithms Workshop
- Full Stack Web Development Certificate

Achievements

- Developed AI-powered web applications using Generative AI.
- Built Full Stack applications using React, Firebase, and Python.
- Implemented DevOps practices using Jenkins and Docker.
- Experienced in CI/CD pipeline development and cloud deployment.

Soft Skills

Problem Solving Communication Leadership Teamwork Adaptability Quick Learner

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
